The kitchen is the Room of Rooms.
 We probably *live* more,
 and more *intensively*,
 here than anywhere else in the home.
 It is the place where
 we meet, where we encounter others.
 As family or friends.
 As a couple.
 We *cook, eat* and *enjoy* ourselves
 in the kitchen. And sometimes we have
 all the time in the world as we do so.
 We argue. And *make up again*.
 We read, write, send emails, post messages.
 And maybe philosophise a little.
 And – quite secretly – the kitchen sets
 the rhythm of our day.
 Good Morning. Then Midday. Then Evening.
 And sometimes night ...
 Which is *why we love* the kitchen.

Living in the kitchen. nolte

A beautiful, timeless old building

as the setting

Individualists live here. The kitchen? An authentic living space that matches their very personal lifestyle. Uniquely designed, this kitchen adapts entirely to the occupants' needs and requirements – with plenty of storage space for all the favourite items that are collected over the course of a lifetime, and multifunctional furniture that is creatively given a new purpose.

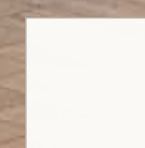

for one's

own idea of *life* in the kitchen today.

Everything in order?
Our beautifully shaped and practical solutions for interior organisation structure drawer contents. This means not an inch of space is wasted.

Nice and strong!
This one can take anything: the solid core worktop is extremely robust and very easy to look after.

Invisible
Practical plinth drawers offer additional storage space and elegantly accommodate kitchen utensils.

Make space!

Generous shelf units leave the kitchen looking tidy and harmonious. Favourite items are displayed at their very best on open shelf units.

Elegant solution

Only no!te allows an ergonomically built-in oven to be integrated without an interfering panel.

Practical and comfortable

A lowboard offers practical storage space, and with a few cushions can also be used as a comfortable seat – which creates a comfortable atmosphere.

A loft radiates expanse and *freedom,*

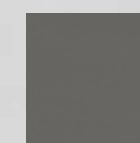

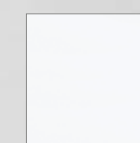

A kitchen for modern city-dwellers with standards: mat lacquered fronts in combination with a glass worktop are the key feature in a calm, urban look that underscores the airy openness of the room. Clever storage solutions create order, and create a tidy, calming atmosphere. Thanks to nolte Küchen's MATRIX 150 measuring system, it is even possible to plan one's four walls on squared paper – ideal for all those who like to take control of their own lives.

creating
an abundance of space
for open *living*

Matrix 900

The *new* carcasse height

nolte offers the perfect combination of ergonomics and design with the new carcass height of 900 mm. Not only does it provide an entirely new look in the kitchen, but it also sets new standards in convenience: in combination with a 12-mm real glass or solid core worktop and the plinth of just 50 mm height, the outcome is the ergonomically perfect working height. Furthermore, the new carcass height provides additional storage space, something that is of particular benefit in small kitchens!

- + ideal ergonomics
- + innovative looks
- + flowing transition to the living area
- + more storage space
- + perfect combination of design and comfort

A touch of nothing
Lacquered panels create a modern look in the kitchen. A real glass worktop underscores the lightness of the lines, and in the 12-mm version are particularly filigree in appearance.

Convenient organisation
The fine art of kitchen planning: everything has its place – cutlery, dishes, provisions. This creates order, and makes daily activities easier.

Minor detail, major effect
Panels underscore the individual character of the kitchen: the combination of lacquer and glass makes an eye-catching statement, creating an elegant focal point.

Quality and elegance
The special fittings GlasLine and Chrom-Line add elegant highlights on drawers and pull-outs. The high-quality material combination of metal and strong glass provides clarity, while chrome adds a shine to the perfectly organised interior.

Statement

Clever eye-catcher: the coloured sideboard not only looks good, but also provides an additional surface and storage space.

Order in seconds

All sorts of daily items can be made to disappear behind the differently-coloured fronts in moments – elegant and uncomplicated.

The Penthouse as an exclusive *invitation –*

The perfect companion to the elegant interior of the living room, this kitchen is puristic, but with its clever details also creates a comfortable ambience. The handleless fronts of MATRIXART blend beautifully with the exclusivity of the Penthouse, and are further enhanced by elegant lighting solutions. Special single items – such as an unusual open wall shelf unit – create an exciting counterpart, and add personality to the room. A place you'll be happy to spend a little time in... or a lot.

Understatement
With MATRIXART, the kitchen can now be created entirely without handles, but instead using the proven MATRIX 150 system. For a harmonious overall impression and even more home comfort.

Kitchen with character
An individual wall shelf turns the kitchen into a comfortable living room, and gives it a personal touch.

No more looking for things
Everything is in its place here – thanks to the clever interior organisation.

In the right place
(Interior) organisation is everything: here we offer you a wide range of different options, ranging from plastic to wood.

The new line

Functionality and timeless interior design: with its clear lines and uncomplicated elegance, the handleless MatrixArt kitchen brings a new aesthetic into the kitchen – for lovers of design and graphic design language.

A country-house, that follows its own *style and*

Comfortable, uncomplicated and with a modern twist – that's the country-house kitchen of today. Framed fronts, display units and a kitchen block with a granite worktop create a nostalgic country flair that is given a contemporary interpretation in a colour concept with plenty of contrasts: while the basics are monochrome in black, white and grey, individual splashes of colour add fresh accents, such as a sideboard or a free standing cupboard combination in bright shades. Traditional country house meets modern town villa – a charming combination.

adds its own quality to *life* in the kitchen.

Chest of drawers in the warm
hues of the colour concept

**All mixed up**

A coloured sideboard brings life and variety into the kitchen. By echoing the colours and handles of the kitchen fronts, it also creates a harmonious overall appearance.

Transparent
A display unit adds nostalgic charm to the kitchen, and puts the focus on pretty items, such as glasses.

A good team
The framed fronts are complemented by perfectly matching pilasters – an all-round thing.

It's so easy to make *personal dreams* of *life* in the kitchen

Pure life reigns supreme in this kitchen. Not only is it for cooking and dining together, but it's also a place for discussions, drawing, playing, doing homework and making plans. This kitchen is the heart of the home – and that's how it has been designed. Functionality and modern flair combine in an inviting ambience: robust materials go along with whatever you ask of them; clever storage solutions keep the chaos under control, and a generous chalk element has space for notes, recipes and spur-of-the-moment ideas – in short, this kitchen is a brightly-coloured room for a life lived in colour.

come true in your very own home.

Feel-good kitchen
However you like your kitchen best, with nolte you can plan it to be absolutely as you want and need it to be. For instance, with a raised oven that combines functionality with optimum ergonomics.

Let there be light

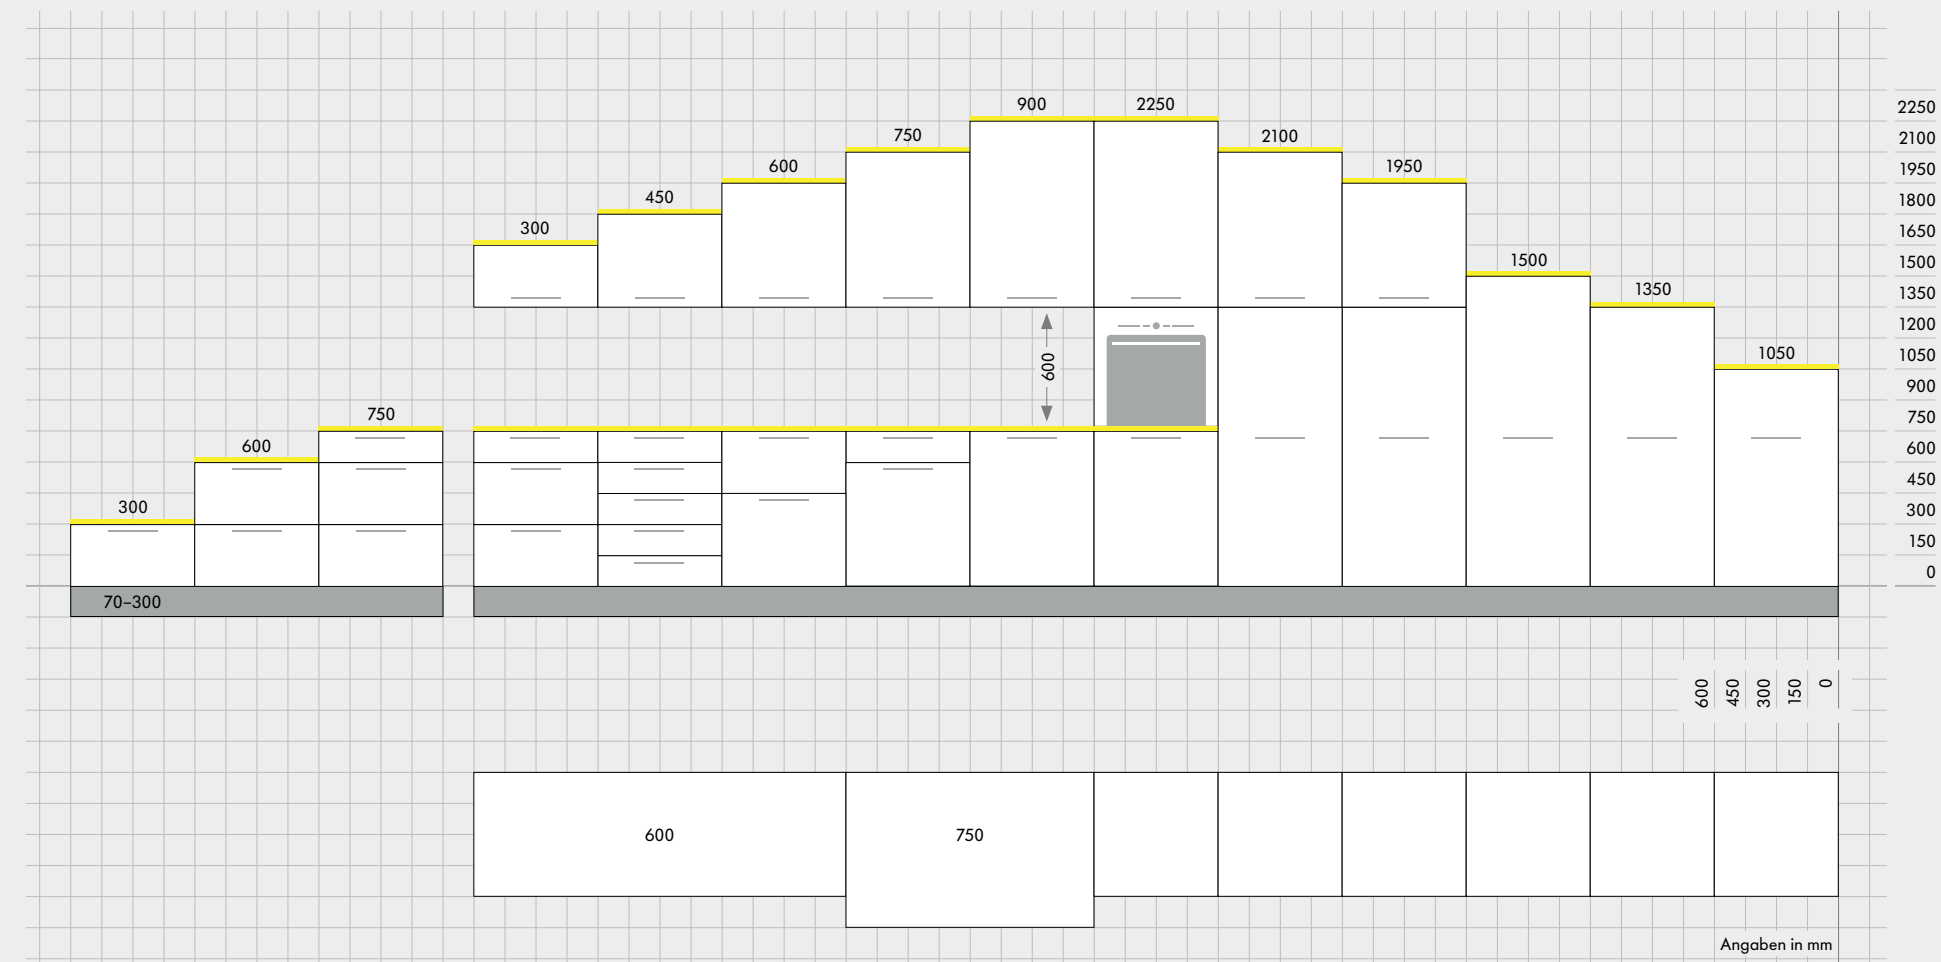

nolte lighting profiles create an atmospheric ambience in the kitchen.

+ A passion for detail
An open shelf unit in the matching colours adds an interesting feature to room design and creates a harmonious counterpart to the kitchen front.

Matrix 150

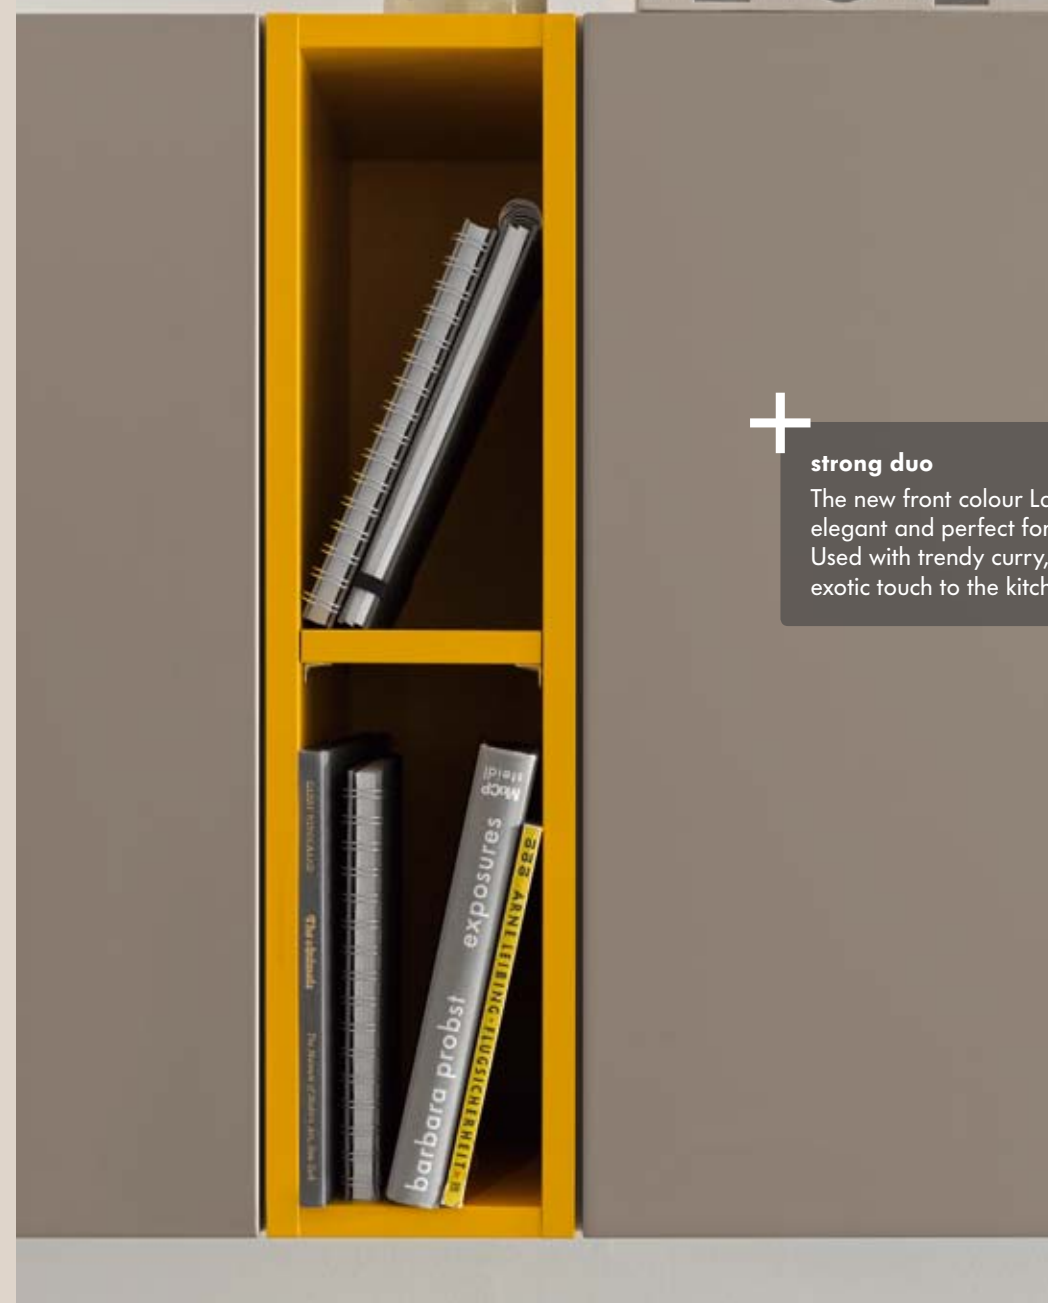

Kitchen planning
has never been
easier.

As simple as it is brilliant: "MATRIX 150" is Nolte Küchen's grid system. It is based on a very simple and easy-to-follow dimensioning logic: all widths, heights and even the depths can be divided by 150 mm. This produces a wide range of attractive, practical kitchens with well-balanced proportions in all dimensions. And they can be planned with effortless ease – even on squared paper, if you want!

- + Simple dimensioning logic
- + Three-dimensionality: height, width, depth – all in the same grid
- + Perfect ergonomics
- + Optimum utilisation of storage space
- + Ideal lines, harmonious overall impression
- + Maximum planning variety
- + Ideal for built-in appliances (cooker and oven aperture 600 mm)

strong duo

The new front colour Lava. Timeless, elegant and perfect for combining. Used with trendy curry, it adds an exotic touch to the kitchen.

stylish basis

Worktops are the eye-catchers in every kitchen, and there are plenty of options for adding design highlights. The robust laminate surface makes it particularly resilient.

Chaos manager

Even if things occasionally turn a little topsy-turvy in daily life, at least we have everything under control in the kitchen. Keeping order is so easy with smart solutions for internal organisation.

Chalk it up!

Give free rein to your creativity here: a practical chalkboard in the kitchen acts as a memo board, pinboard, shopping list or somewhere for artists of all ages to practise their craft!
